clean air at work

VISIONAIR MEDIAMAX

AIR CLEANER

The VisionAir MediaMax extracts fine particles - such as fine dust, bacteria, pollen, dust mites, and tobacco smoke - from the air. It's highly suitable for dusty and poorly or badly ventilated spaces.

Depending on the volume of the room you can choose a VisionAir[1] or a VisionAir[2]. Both models can be mounted onto or into the ceiling. VisionAir[1] can be fixed to the wall and placed on a movable stand.

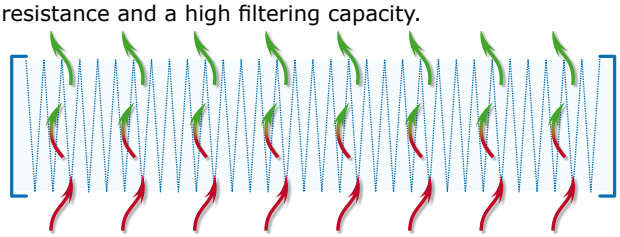
product data sheet

FILTERING PRINCIPLE

The VisionAir MediaMax contains a unique filter system, which cleans indoor air in three phases.

Phase 1: the pre-filter captures the bigger particles of dust and other polluting items such as hairs and skin flakes.

Phase 2: the environmentally-friendly MediaMax paper filter has a large surface area. Resulting in low air resistance and a high filtering capacity.



The MediaMax filter in operation

Phase 3: finally the activated carbon filter adsorbs unpleasant odours, like for example from cigarettes and cigars.

Filter construction:
Pre-filter » MediaMax filter »
Activated carbon filter

DIMENSIONS VISIONAIR[1] MEDIAMAX

Dimensions L x W x H	630 x 620 x 290 mm
Built-in height	210 mm
Net weight	14 kg

DIMENSIONS VISIONAIR[2] MEDIAMAX

Dimensions L x W x H	1050 x 630 x 290 mm
Built-in height	210 mm
Net weight	24 kg

APPROVALS/CERTIFICATES
